

CCYC RACING RULES CLINIC 2025

**Wednesday 12th March
19:00**

We invite all active racing skippers and their crew to an informal interactive session focusing on the Racing Rules of Sailing.

Whether you're a seasoned salty sage or newbie crew looking to make sense of the complexities of the rule book, there's something for everyone!

Led by our very own Rear Commadore Sailing, Craig Dymock, we intend to revisit the 'when boats come together' section of the rulebook, as we feel this is the crucial part around potential collisions that we all need to be fully aware of.

This will be a great opportunity to bring our crews together in preparation for the forthcoming season.
